

In response to news that the FCC may be considering eliminating radio stations such as K-Love from the air waves I have to immediately petition against this move. K-LOve serves me in my local area by providing postive Christian music and encouragement. This radio station is a vital part of my whole day and my family financially supports this station monthly because of the impact is has on us. My life would not be the same if K-LOVE were not in it, a few months ago my father died suddenly and K-Love was one of the only positive influences on my life. It offered verses for encouragement, people were willing to pray for me if I called in, and the all programs helped my family and myself. I have heard countless people with similiar stories such as mine who would be heartbroken if K-Love were taken off air. Do not destroy positive influences such as this station, rather work on eliminating junk stations that promote stereotypes, sexism, and vulgarity such as Howard Stern!
